Now-a-days the world is in a grip of social evil like It is the mother of evils and problems, which the modern society is facing. has destroyed the piece of human life. It has become one of the major world including Pakistan. It is rightly said that not gold but men can make the nation greater and strong. It is always the people of the country who build a nation by their struggle and sacrifice. But a large number of people disturb when a country suffers the problem of It has spoilt our young generation consequently the good image of a nation is spoiled.

.....is the most serious problem of today. It has been known as huge curse for the society. Taking an alarming position,has become a threat to social and the economics of poor developing countries like Pakistan. It spoils the social peace of a nation. Creates depression and frustration in the society. People feel insecure because of It has created disappointment among masses and ruin the machinery of government.

.....has many ill-effects and disadvantages. It has given rise to social economic, political and moral problems. It has affected not only our social and mental life but also the administrative system as a whole. It is very important to note this has spread its effects not only in Pakistan but also in the whole world. We may say thatis like and epidemic and white ant is eating away our national health and wealth without apparent damage.

The main cause ofare poverty, illiteracy, supervision of crimes by lords and desire to collect money and become rich overnight. Loose administration is

also the main cause of this evil. Moral, social, religious and regular difference also great conflicts and it paves the ways of spreadin a society. Faulty social and economic policy of the government is one of the major causes of this problem. Moreover, non-availability of basic facilities and necessities like education, health care and unemployment also pave the way to spread.....in society.

To make our country strong, peaceful and prosperous, we should eradicate this evil with iron Land at all levels. Although a strong government can solve it properly, yet public co-operation with the government is of great importance. Literacy rate should be increased because only educated society can be aware of its serious problems. National unity is very important to overcome this. If it is not effectively checked the entire judicial, moral, economics, social pillars of nation will be collapsed. Every evil should be nipped in the bud. I think our religion Islam can be helpful to a great extent to this to solve the problem. It is because Islam is a complete code of life and covers all aspects of man's life.
